1. CORPORATE INFORMATION

Gulf Lifting Financial Leasing Company (the “Company”) previously known as “Gulf Lifting Rental Company” is a Saudi Closed Joint Stock company established under the Regulations for Companies in the Kingdom of Saudi Arabia. The Company is registered in Dammam under commercial registration number 2050030896 dated 19 Shaban, 1416H corresponding to 10 January 1996G and operating under company license number 47/A Sh/201708 dated 14 Dhul Qa’dah 1438H corresponding to 6 August 2017G issued by Saudi Arabian Monetary Authority (“SAMA”).

The Company is engaged in the finance leasing business. The Company is effectively a wholly owned subsidiary of Yusuf Bin Ahmed Kanoo Company Limited.

In 2013, a new Finance Lease Law was enacted in the Kingdom of Saudi Arabia, whereby, only licensed companies are allowed to conduct finance lease business in the Kingdom of Saudi Arabia. Accordingly, the shareholders of the Company (i) filed application with relevant authorities to secure license to conduct finance lease business; (ii) increased the capital of the Company from SR 40 million to SR 100 million as required by the law; and (iii) resolved to transfer all the business activities and related assets and liabilities at carrying amount of operating lease business to a shareholder effective from 1 January 2013. During 2016, the Company received initial approval of the acceptance of application from the Saudi Arabia Monetary Authority (SAMA).

During 2016, the shareholders of the Company resolved to change the name of the Company from Gulf Lifting Rental Company to Gulf Lifting Financial Leasing Company. Further, the Company was converted from limited liability company into a Closed Joint Stock company in accordance with Ministerial Resolution number 287/Q dated 27 Dhu Al Qa’dah 1437H, corresponding to 30 August 2016G. The legal formalities associated with the change in name and legal status of the Company were completed during 2016.

In view of the change in legal status, the shareholders also resolved to (i) convert statutory reserve and retained earnings to additional equity contribution at 30 August 2016 and (ii) transfer the assets, liabilities and activities of the Company to Closed Joint Stock Company.

The Company has received license from SAMA for practice of finance lease business in Kingdom of Saudi Arabia on 14 Dhul Qahda 1438H corresponding to 6 August 2017G.

On 11 March 2020, the World Health Organisation (“WHO”) declared the Coronavirus (“COVID-19”) outbreak as a pandemic in recognition of its rapid spread across the globe. This outbreak has also affected the GCC region including the Kingdom of Saudi Arabia. Governments all over the world took steps to contain the spread of the virus. Saudi Arabia in particular has implemented closure of borders, released social distancing guidelines and enforced country wide lockdowns and curfews.

Oil prices have also witnessed significant volatility during the current period, owing not just to demand issues arising from COVID-19 as the world economies go into lockdown, but also supply issues driven by volume which had predated the pandemic. For the Company, whose operations are largely concentrated in an economy which is primarily based on oil, the economic impacts of the above events, though the scale and duration of which remains uncertain, primarily include:

- Significant business interruption arising from hinderance in generating new originations, travel restrictions and unavailability of personnel etc.;
- Deterioration in credit worthiness of customers in particular to those working or involved in ‘highly exposed sectors’ such as transportation, tourism, hospitality, entertainment, construction and retail; and
- A significant increase in economic uncertainty, evidenced by more volatile asset prices and currency exchange rates, and a general decline in interest rates globally.

1. CORPORATE INFORMATION (Continued)

Collectively, these current events and the prevailing conditions require the Company to analyze the likely impact of these events on the business operations. The Board of Directors and the management of the Company have evaluated the current situation and accordingly, have activated its business continuity planning and other risk management practices to manage the potential business disruption COVID-19 outbreak may have on its operations and financial performance.

The pandemic has also required the Company to revise certain inputs and assumptions used for the determination of expected credit losses ("ECL"). These primarily revolved around adjusting macroeconomic factors such as expected oil prices and GDP and revaluating the methods of scenario construction and the underlying weightages assigned to these scenarios to estimate the likelihood and severity of these for the ECL determination. As a result, the Company has provided an additional amount of SR 3.3 million as an impairment loss. Further, the Company will continue to individually assess significant corporate exposures as more reliable data becomes available and accordingly determine if any additional ECL amounts need to be recognized. (Refer Note 3).

SAMA programs and initiatives launched

In response to COVID-19, SAMA launched the *Private Sector Financing Support Program* ("PSFSP") in March 2020 to provide the necessary support to the SME sector through empowering and facilitating the financing community. The PSFSP mainly encompasses the following programs:

- Deferred payments program;
- Funding for lending program;
- Loan guarantee program; and
- Point of sale ("POS") and e-commerce service fee support program.

As part of the deferred payments program, the Company is required to defer payments for six months on lease contracts to those customers that qualify as SMEs. The payment reliefs are considered as short-term liquidity support to address the borrower's potential cash flow issues. The Company has effected the payment reliefs by deferring the instalments falling due within the period from 14 March 2020 to 14 September 2020 for a period of six months. The accounting impact of these changes in terms of the credit facilities has been assessed as per the requirements of IFRS 9 as modification in terms of arrangement. The impact due to change in modification for eligible lease contracts will have an additional expense of SR 2.34 million recognised in the statement of profit and loss.

Further, in order to compensate all the related costs that the Company is expected to incur under the SAMA and other public authorities program, the Company has received a profit free deposit of SR 32.25 million from SAMA as at 30 June 2020. The benefit of the subsidised funding rate has been accounted for on a systematic basis, in accordance with government grant accounting requirements. This resulted in an income of SR 2.51 million and the same has been recognised in the interim condensed statement of profit or loss for the period ended 30 June 2020. The management has exercised certain judgements in the recognition and measurement of this grant income.

During April 2020, SAMA issued a guidance on Accounting and Regulatory Treatment of COVID-19 Extraordinary Support Measures. The Company has considered the guidance issued and evaluated the accounting impact in period ended 30 June 2020 accordingly.

As at 30 June 2020, the Company has not participated in SAMA's funding for lending, loan guarantee and POS and e-commerce service fee support programs.

These condensed interim financial statements have been prepared on a historical cost basis, using going concern assumption, except for investment which is measured at fair value and employees’ end of service benefits which is measured at projected unit credit method.

2.3 Functional and presentation currency

Items included in these financial statements are measured using the currency of the primary economic environment in which the Company operates. These condensed interim financial statements are presented in Saudi Riyals (SR) which is the Company’s functional and presentation currency. All financial information presented in Saudi Riyals has been rounded to the nearest Riyal, unless otherwise stated.

2.4 Significant accounting judgments, estimates and assumptions

In preparing these condensed interim financial statements, the significant judgments made by the management in applying the Company’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements for the year ended 31 December 2019, except for the estimates described below:

Measurement of the expected credit loss allowance:

As explained in Note 1, Management has proactively assessed the potential impact of the COVID-19 pandemic in the market in which the Company operates. As a result, the Management of the Company have revised certain estimates related to provision for expected credit losses and an additional amount of SR 3.3 million was recognized as an expense in statement of profit or loss and other comprehensive income. (Refer Note 3).

However, in view of the current uncertainty as explained in note 1, any future change in the assumptions and key estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods. As the situation is rapidly evolving with future uncertainties, management will continue to assess the impact based on prospective developments.

2.5 Standards, new pronouncements and interpretations:

a) New International Financial Reporting Standards (IFRS), International Financial Reporting and Interpretations Committee’s interpretations (IFRIC) and amendments thereof, adopted by the Company.

A. Government grant

The Company recognises a government grant related to income, if there is a reasonable assurance that it will be received and the Company will comply with the conditions associated with the grant. The benefit of a government deposit at a below-market rate of profit is treated as a government grant related to income. The below-market rate deposit is recognised and measured in accordance with IFRS 9 Financial Instruments.
